**BANCA TRAVEL & TOURS INC.** is a Philippine tourism company. The main office of the company is located in Cebu City – in the capital of the Cebu province (Central Visayi region).

The desire to connect two nations – Russian and Filipino – for communication and mutual cooperation, as well as generously to share with our guests the best of the Philippines, led us to create a travel company, focused mainly on Russia.

**Banca** is a traditional Filipino boat with two bamboo trunks on each side of it for safety in a storm. This kind of boat has been used since ancient times by local sailors to move between the nearby islands. It is not by chance that this word is included in our company name. Being brave travelers, familiar with the risk of sailing on the sea, the Filipinos are always ready to show hospitality to those who covered long distances and reached the islands of their archipelago. Thus, if you use the services of **BANCA TRAVEL & TOURS INC.**, you will enjoy the traditional Filipino hospitality during your visit, discover and explore this amazing

tropical country located on the islands with its white sandy beaches, azure sea, blue lagoons, as well as its unique local flora and fauna.

The company has professional staff speaking Russian and English, who are ready to solve any of guests's problems. We will help our clients to book flight tickets to and from any city in the Philippines and Russia, book a hotel according to their taste, meet them at the airport, check into a hotel, plan and organize their leisure and entertainment, as well as translation, shopping, health treatment, business meetings, transfers, etc. Our experts also can help guests with real estate advice, if they have any interest in this.

Today, one of the most popular tourist destinations in the Philippines is Cebu island, connected to the island of Mactan, where the international airport is located. This is a kind of transit point from which other places attractive for tourists can be reached: the islands of Bohol, Siargao, Barokai, Negros, Malapaskua, Mindanao, etc.

Depending on interests, travelers can choose different destinations and types of tourism:

- health and medical tourism
- informative (excursion) tourism
- sport tourism (snorkeling, diving, canoeing) and fishing
- business tourism
- gastronomic tourism
- agritourism

The Philippines is a country where English is widely spoken, so all types of recreational and business activities can be combined with learning English and practice of speech.

A rich choice of hotels, restaurants, cafes, and bars for every taste will make your holiday in the Philippines comfortable.

Welcome to Philippines!

Sincerely Yours,  
Manager of Banca Travel & Tours Inc.
